

## WORKSHOP – WP2

### “Application of the population PK to the clearance of iohexol”

June 6, 2024,

Instituto de Tecnologías Biomédicas (ITB),  
Faculty of Medicine –University of La Laguna.

**9:00 – 9:15**

**Introduction – The clearance of iohexol-DBS –application to clinical practice.**

(Esteban Porrini – University of La Laguna)

**9:15**

**Non-parametric population pharmacokinetic modelling and its use for mGFR investigations and immunosuppressive TDM.**

(Anders Asberg – Oslo)

**10:00**

**Parametric population pharmacokinetic modeling and its use for evaluating different eGFR estimation methods.**

(Trine Meldgaard Lund- Copenhagen)

*11:00 Coffee Break*

**12:00**

**The SIMPLIFY Study.** (Esteban Porrini – Sergio Luis Lima – Federico González Rinne; Laboratory of Renal Function)

*13:00 Lunch*
